

Dear ACES Members and Friends,

I hope you are all enjoying a wonderful holiday season.

This is a gentle reminder that ACES memberships expire on December 31 of each year, except for those with multi-year memberships. As we approach the new year, we kindly encourage you to renew your ACES membership for 2026 as soon as possible in January.

If you were not a member in 2025, we warmly invite you to consider joining the society. Membership renewal and new applications can be completed at:

<https://aces-society.org/mem.php>

The annual membership fee is only \$40 and offers significant value. ACES members enjoy substantial benefits, including discounted registration fees for ACES conferences, reduced publication charges for the ACES Journal, discounts for the ACES Electromagnetics School, ACES books, and more.

ACES is a leading professional society in the broad field of applied computational electromagnetics. Our mission is to enhance and promote research, development, education, training, and outreach across all aspects of electromagnetic methods, designs, and applications.

Thank you for your continued support of ACES. Best wishes for a happy and successful New Year.

Sincerely,

Atef Elsherbeni

ACES Website Manager
