

Editor's comment

You will notice one or two new things in this edition of the Newsletter. In the last edition I used a couple of words that seemed to resonate somewhat: “sharing” and “community”. Hence, there are some new sections dealing with ACES news and people.

I hope you feel more informed about the two main components of the ACES technical communication – namely the Journal and the Conference. Also, to foster the sense of community, I would like to introduce a little more information about some of the people and their places of work that help make up the ACES community.

I hope you find these additions interesting.

Please let me know what you think and I would like to hear your suggestions for other ways for the Newsletter to help serve the ACES members.

Best wishes

Alistair
