### Become ACES Member

ACES membership offers free access to the ACES Journal and discounted registration fees for the ACES conferences.

Member:

*Basic:* \$40/year

*Student/Retired:* \$25/year

*Life:* \$400/year

Institutional Member:

*Basic (US):* \$360/year

*Basic (Intl):* \$540/year

*Expanded (US):* \$535/year

*Expanded (Intl):* \$715/year

Become an ACES member by signing up [here](#).

We look forward to your contributions to the [ACES Journal](#) as well as your participation in the [ACES Conferences](#).

Sincerely,

**Hakan Bagci**

Editor - ACES Newsletter

## The President's Message

Dear ACES Members and Friends,

On behalf of the Applied Computational Electromagnetics Society (ACES), I would like to welcome you to the March 2022 edition of our ACES Newsletter!

My special thanks, on behalf of all of you, to the outgoing Editor in Chief (EiC) of the Newsletter, Prof. Sami Barmada, for his outstanding leadership and service as EiC over many years! Sami has been at the forefront of everything the Society does and will keep doing so. I would also like to extend warmest welcome and congratulations to the new EiC, Prof.

Hakan Bagci, who has already done a fantastic job with his first edition of the Newsletter!

We have started 2022 with a lot of important activities in the Society. We are in the middle of processes for nomination, selection or election for important awards and positions in the Society, including new members of the ACES Board of Directors, ACES Awards, and ACES Fellows.

We have been working on improving the experiences of authors, reviewers, editors, and readers of our ACES Journal within the new partnership with River Publishers. We have been preparing our conferences for this year.

We have entered into an agreement with MathWorks to jointly conduct ACES Student Programming Competition, associated with our conferences.

We held our Board of Directors Meeting on February 26, 2022, which was very productive and resulted in a number of impactful decisions regarding our publications, conferences, membership, and finances.

Our ACES 2022 Conference is planned to be held in person in Atlanta, GA, USA, in October-November timeframe, with details to be determined and announced soon.

Our ACES-China-2022 Conference will be held in Xuzhou, China, between July 28-31, 2022, in a hybrid format.

I very much look forward to seeing many of you at our conferences and meetings in person this year!

Branislav M. Notaros  
President, ACES  
Professor, Colorado State University  
Fort Collins, CO, USA

## ACES Awards

ACES has established four annual awards for individuals who have made significant contributions to the technical areas of interest to ACES and individuals who have offered significant services to the Society.

### **ACES Computational Electromagnetics Award**

To honor career achievements and major contributions in the field of computational electromagnetics.

### **ACES Technical Achievement Award**

To honor original technical contributions in the field of applied computational electromagnetics, supported by publications, patents, and other products such as developed computer codes.

### **ACES Meritorious Service Award**

To honor outstanding and dedicated service to ACES over a long period of time. Technical contributions are not a factor in this award.

### **ACES Early Career Award**

To honor achievements and contributions in the field of computational electromagnetics by a researcher aged 35 years or younger at the time of nomination.

The awards will be presented at the Awards Banquet at this year's ACES Conference.

No more than one recipient of each of the four awards will be selected each year. The ACES Awards Committee will select recipients and notify the nominators of the outcome. If no suitable nominations are submitted, the Awards Committee may select recipients from the current ACES membership at their own discretion. Preference for the ACES Computational Electromagnetics Award will be given to ACES members, although it may be awarded to non-members at the Awards Committee's discretion. The other awards are restricted to the members with preference given to individuals who have maintained ACES membership for at least a 5-year period.

**Deadline for nominations:** March 31, 2022

Additional information and nomination forms are available on the [ACES website](#). For more information, please email [Abd Arkadan](#).

## ACES Conference

The Conference Committee is currently working on scheduling the ACES 2022 Conference with a target date in October or November 2022. The conference is planned to be held in person in Atlanta, GA, USA.

The ACES-China-2022 Conference will be held in Xuzhou, China, between July 28–31, 2022, in a hybrid format.

More information about the ACES Conferences be posted on the [ACES website](#) and the [ACES LinkedIn Group](#), and an email will be sent to the ACES mailing list.

## ACES Journal

The [ACES Journal](#) is devoted to the exchange of information in the field of computational electromagnetics, to the advancement of the state of the art, and to the promotion of related technical activities. The ACES Journal welcomes original, previously unpublished papers, related to computational electromagnetics. All papers are refereed.
